Welcome back parents and carers!

WRITING / HSIE
This term Year One will be undertaking a unit of work on Celebrations. Students will be examining a variety of cultural and community celebrations. These include the Mexican Day of the Dead, the Hindu festival of Diwali and Festival of the Winds in Sydney. This will provide the stimulus for a variety of writing activities including report writing, poetry, writing instructions, recipes and descriptions.

SCIENCE
Our focus this term will be looking at the properties of foods and the changes to their properties that occur during heating and cooling. There will be lots of hands-on and shared experiences to explore this topic.

HOMEWORK
Homework for this term has been handed out to your child. Each Monday, homework sheets are to be handed back to your child’s teacher. A short oral presentation on a range of topics is encouraged and students should be able to complete this independently.

PERSONAL DEVELOPMENT AND HEALTH
A unit of work, All About Me, describes the characteristics that make us both similar to others and unique. Students will be looking at some internal body parts, including the skeleton, as well as recognising changes that have happened to our bodies over time.

Imogene Cochrane
Lilli Pilli

Ann Dragutinovic
Blue Gum

Katie Ahearn

POINTS OF INTEREST
Waste free Wednesdays continue this term.
An incursion will be looking at packaging in supermarkets with a sustainability focus: Thursday Nov 8
