Year 4
Bottle Brush and Boronia

**SCIENCE**

This term’s science topic for Year 4 is called *Moving and Growing*. Students will have the opportunity to learn about different foods and the components of a healthy diet. They will also learn about different kinds of creatures, such as vertebrates and invertebrates. We will also look at the skeletal systems of humans and animals.

**HSIE**

This term in HSIE, Year 4 will be undertaking a unit on products and processes and will be discovering what it takes to run a business. Students will learn how businesses operate and will be encouraged to develop group business projects. They will examine how technology affects the provision of goods and services, lifestyles, the environment and monetary exchange.

**WRITING**

In Term 3, Bottle Brush and Boronia will learn about a variety of text types, with a focus on fables and information reports.

**COMPUTERS**

This term, students will focus on how to use technology to communicate with an audience. Students will use the computers to create a talking storybook and a visual photostory.
